Advanced Entertainment Solutions for Leisure on Ships

KME is a specialized company dedicated to providing premium entertainment equipment, ensuring that customers can enjoy the best leisure experience while sailing. We offer high-performance equipment tailored to suit various environments, backed by the latest technology and customized solutions.

Product Overview

KME provides high-definition UHD TVs, DVD and Blu-ray players, projectors, stereo systems, woofer speakers, screens, cinema systems, and karaoke systems, so customers can feel as comfortable as they would at home, even while at sea. These equipment solutions can be customized to fit the structure and size of the ship, ensuring an exceptional leisure experience for our customers.

Equipment Provided

· List

UHD TV & High-Resolution Display Systems

UHD TVs provide vivid images and superior color quality, offering an immersive viewing experience even at sea. Available in various sizes and models, they can be optimally installed to fit the space.

Equipped with analog reception features compatible with **NTSC**, **PAL**, and **SECAM**, ensuring reliable viewing even in regions where digital transition has not been completed. This allows ships traveling across multiple countries to conveniently access diverse channels and content according to local broadcasting formats.

Projector & Screen Systems

Projectors and large screen systems provide a theater-like movie experience, allowing customers to enjoy immersive films on a large display. Customized installations are available to maximize the use of shipboard space.

Stereo System & Woofer Speakers

High-quality stereo systems and powerful woofer speakers offer deep and rich sound, enhancing the experience of watching movies, listening to music, or enjoying karaoke. These systems are tailored to fit the acoustic environment of the ship.

Cinema System

The cinema system delivers a complete movie-watching environment, with large screens and surround sound that provide an immersive theater experience. Custom installations are available to optimize configurations for various ship spaces.

Equipment Provided

List

Karaoke System

The karaoke system features the latest song updates and an intuitive user interface, creating a lively party atmosphere during voyages. Easy installation and user-friendly operation make it accessible for all customers to enjoy.

DVD & Blu-ray Players

DVD and Blu-ray players are ideal for enjoying the latest movies and high-resolution content. They support various formats, ensuring stable and smooth playback performance.

AV Receiver

The AV receiver, also known as an audio-video receiver (AV Receiver), is a sophisticated multimedia device that plays a central role in home theater systems. The AV receiver is equipped with the ability to manage and process various audio and video sources, providing users with an immersive viewing experience.

Amplifier

An amplifier is an electronic device that amplifies audio signals and delivers them to speakers or other sound devices. Amplifiers play a crucial role in audio systems, determining the quality and output level of the signals.

In addition, KME can provide a variety of entertainment equipment based on customer requirements. Explore various options for an even richer leisure experience.

Customization & Installation Services

Customized Installation and Performance Optimization Services

All entertainment equipment from KME is custom-installed to fit the size and structure of the ship. We offer optimal layout solutions that ensure the best performance based on customer requirements. After installation, performance maintenance and further customization are also available.

Service & Support

Ongoing Technical Support and Maintenance Services

KME provides continuous technical support to ensure customers can use their equipment without issues after installation. Through regular maintenance, we keep the equipment's performance at its peak, and on-site service is available if necessary.

Future-Oriented Vision

KME Co., Ltd. is committed to continuous research and development to improve safety and efficiency in the maritime industry.

Continuous Innovation

We will lead the advancement of the maritime industry by continuously developing new technologies and solutions.

Global Partnerships

Strengthening our global network to create value in various markets by collaborating with customers worldwide.

KME provides top-tier entertainment equipment and services to ensure that customers feel the comfort and joy of home even while at sea. With the best technology and customized solutions, we make every journey even more special.
