Custom Sauna Booths for Cruise Ships

KME Co., Ltd. is a company specializing in the production of innovative products for offshore vessels, with a particular focus on installing sauna booths for cruise ships. We stand out with our expertise in custom designs and high-quality materials, ensuring a comfortable and safe sauna environment for our clients.

Features and Advantages

Our sauna booths are high-quality products designed to meet customers' specific needs, strictly adhering to maritime safety and environmental standards.

The booth is constructed with tempered glass and fitted with piano hinges for durability and strength, while all areas that come into contact with the body are finished with wood to enhance safety.

Product Specifications

Wood

SPRUS wood is lightweight yet highly durable, and it is specially treated to withstand offshore environments.

Tempered Glass

Designed with tempered glass to allow visibility inside the sauna while offering high durability and resistance to breakage.

Piano Hinges

Enhances the door's durability and ensures smooth opening and closing.

Sauna hourglass

Sauna sand timer

Temperature Controller

A temperature controller is installed to easily adjust the sauna's internal temperature, providing a comfortable environment.

Safe Finishing

All areas in contact with the body are finished with wood, minimizing the risk of burns.

Natural convection

An air ventilation system is designed to keep fresh air circulating and maintain a pleasant atmosphere.

Future-Oriented Vision

KME Co., Ltd. is committed to continuous research and development to improve safety and efficiency in the maritime industry.

Continuous Innovation

We will lead the advancement of the maritime industry by continuously developing new technologies and solutions.

Global Partnerships

Strengthening our global network to create value in various markets by collaborating with customers worldwide.

KME's sauna booth offers the best satisfaction to customers with its optimized design and customized service for cruise ship environments.
